I. ABOUT THE PROGRAM

The Indian Country Economic Development (ICED) program, created by the 59th Montana State Legislature, is a State-funded program administered by the Montana Department of Commerce. Since October 2005, the State Legislature has made a restricted biennial appropriation of One-Time-Only (OTO) grant funds to be made available to Montana’s tribal nations and tribal businesses for business development activities. In the 67th legislative session, \$1.75 M in funding for the ICED program was approved as part of House Bill 2, state special revenue, and signed into law by Governor Gianforte in May 2021.

The family of programs funded under the ICED program (Tribal Business Planning Grant, Indian Equity Fund (IEF) Small Business Grant, and Native American Business Advisors (NABA) allow the Office of Indian Country Economic Development of the Department of Commerce to continue to articulate measurable successes of the program to tribal communities, the administration, and to the elected leadership.

III. NATIVE AMERICAN BUSINESS ADVISORS (NABA)

A. SUMMARY

The Native American Business Advisors (NABAs) Grant is a fund to support the activities of Native American community-based organizations, tribal colleges, and tribal government organizations that support private sector business development on reservations and in tribal communities. These entities offer business counseling and credit counseling, and application support to Native American businesses in Montana. The NABAs are a key community asset necessary in the development and success of Native American businesses. To develop this asset, the Program is focused on increasing the technical capacity of the NABA network such as assisting individuals in business start-up, marketing, utilization of business resources, and commercial loan application assistance. Additionally, NABAs will also provide more robust application assistance to the Indian Equity Fund Small Business Grant applicants. A total of \$20,000 per year is available to fund up to eight NABA applications in each of tribal nation areas.

Eligible applicants include local Native American development organizations that have offered technical assistance services to pre-venture and established Native American businesses in Montana. Additionally, those organizations that have been awarded NABA grants in the past should either demonstrate a history of submitting timely reports

and meeting required performance targets or should provide a detailed plan demonstrating a commitment to meeting reporting, capacity building, and performance targets. Any unused funds may be provided to complete special projects that support private sector development on reservations and in tribal communities at the discretion of the Department of Commerce.

The NABA organizations are tasked with completing the following activity requirements:

- **BUSINESS TECHNICAL ASSISTANCE/ COUNSELING SERVICES-** assist applicants in creating, writing, and implementing a business plan, establishing product or service cost structures, assisting with market analysis and feasibility resources, establishing realistic financial projections, or providing marketing and sales instruction and information.
